plus shipping costs, valid from 1 Jan. 2019.

The **BioBiteCorrector Sleep Appliance** is the world's first anti-snoring appliance featuring all-titanium mandibular protrusion hinges with ball joints.

Titanium – biocompatible and hypoallergenic.

The hinge is light, slender and at the same time extremely sturdy. Thanks to four ball joints, the BioBiteCorrector Sleep Appliance enables all mouth and jaw movements. This ensures high speaking and wearing comfort.

### Digital workflow:

The **BioBiteCorrector Sleep Appliance** is de-signed digitally, using 3D software. Then the splints are milled (CAD/CAM process).

## BioBiteCorrector Sleep Appliance

### The Effective Treatment of Snoring and Sleep Apnoea

## Advantages

- Anti-snoring hinge made completely of titanium
- Biocompatible and hypoallergenic
- Low-level vertical bite opening
- Direct adjustability
- High wearing comfort thanks to ball joints
- Digital 3D design
- Splint surface design with occlusal support
- Reliable BioBiteCorrector hinge benefits
- Premium-quality milled splints
- High wearing comfort thanks to flat design
- High effectiveness
